Break-up of persons killed by road use category in 2016

Source:Accidents India 2016 report

Look at the diagram given above and answer the following.

1.Which road use category causes the highest number of deaths? Could you give any three possible reasons? What would you suggest as the related safety rules?

2.How could pedestrians save themselves from road accidents?

Direct Consequences of Accidents:

1 Fatality (Death)

2. Injury

3. Damage to Property

Preventive measures for accidents:

1. Education and awareness about road safety

2. Strict enforcement of law

3. Engineering:

   (a) Vehicle design

   (b) Road infrastructure

The chances of death by accident can be decreased by 51% with the proper use of seat beltand healmet.

Road Traffic Deaths Worldwide by Sex and Age Group, 2002

Source: WHO Global Burden of Disease Project, Version 1 (2002).

Look at the above diagram carefully and answer the following.

1. Which age group tops the number of road traffic deaths worldwide? Why?

2. Give some inference on the striking difference between the number of road accident deaths of males and females.
