I. Look at the two trees. One is a green flourishing tree and the other, a brown withering tree.

The class will now be divided into two groups. Group A will list down the agents that support a tree's growth. Group B will list down those that prevent it. Once the groups are ready with their lists, a few representatives from each group will write down the lists on the black board.

Taking clues from the lists on the board, complete the following chart.
