A sample speech is given below.

Greeting

Good morning, esteemed Chief Guest, the Head Master, teachers, dear friends and invitees. I am Shobha, Secretary of GO GREEN, the Environment Club of our school. Today, I stand before you to share my views on the topic.

Introducing Topic

Stopping pollution is the best solution

Introduction with a shocking observation

We humans have always deceived ourselves by thinking that someone else will save our planet. Can you imagine...for the past 200 years we have been conquering nature, and now...we are beating it to death by constantly polluting it. The Earth is not dying, it is being killed and the people who are killing it have names and addresses.

Factors and causes

All the human actions in this modern world directly impact the whole ecosystem. .....
.....

Measures or steps

Because of over-population, the number of various chemical elements is increasing in the atmosphere which ultimately causes irregular rainfall and global warming. And who is responsible?

Summing up

.....
.....
Let us do our bit. Let us walk or cycle to our work places/school. Let us not use plastic bags. Let us all keep our surroundings clean and plant at least one tree.

Thanking

.....
.....
.....
