a very rare thing to find and if you are able to give it in return, your life is so much better and more fulfilling for everyone involved. Trusting people can hurt sometimes because they betray you, but you learn from the situation and move on to the next adventure in your life. Just don't let small bumps in the road throw you back to not trusting and being cold. Simply keep moving forward and you will have a wonderfully fulfilling life that will be filled with good people that care and are trustworthy.

Hello. I'm Severn Suzuki, speaking for ECO, the Environmental Children's Organization. We are a group of 12- and 13-year-olds trying to make a difference: Vanessa Suttie, Morgan Geisler, Michelle Quigg, and me. We've raised all the money to come here ourselves, to come 5,000 miles to tell you adults you must change your ways.

Coming up here today, I have no hidden agenda. I am fighting for my future. Losing my future is not like losing an election or a few points on the stock market. I am here to speak for all generations to come. I am here to speak on behalf of the starving children around the world whose cries go unheard. I am here to speak for the countless animals dying across this planet because they have nowhere left to go. I am afraid to go out in the sun now because of the holes in our ozone. I am afraid to breathe the air because I don't know what chemicals are in it. I used to go fishing
