Applied Chemistry

Experiment with radioactive elements to know about its half-life

Steps

- Use the given URL to open the simulation page and allow the "javascript" to play, if asks. Read the given description on how to perform the half-life simulation.
- Click the "Years Passed" button to increase the years by 1000 and press "Count the Remaining Atom" to know how much of the atoms have become "Daughter atoms".
- Use the "Table/Graph" button situated below the description to record your observations.
- Press the "video" button to view the process of degradation of radioactive atoms and its calculation

Radioactive Atoms Half-Life
