5. Why is the usage of rainforest biomes for large scale agriculture unsustainable?

a) because it is too wet.

b) because the temperature is too warm.

c) because the soil is too thin.

d) because the soil is poor.

II. Assertion type questions. Directions

a) Both assertion (A) and reason(R) are true; R explains A

b) Both assertion(A) and reason(R) are true; R does not explain A

c) A is true; R is false

d) Both A and R are false

1. **A:** Heterotrophs do not produce their own food.

   R: They depend on autotrophs for their nourishment.

2. **A:** Hotspots are the regions characterised by numerous endemic plants and animal species living in a vulnerable environment.

   R: To manage and focus on conservation work more effectively, researchers identified hotspots.

III. Fill In The Blanks

1. An area where animals, plants and micro organisms live and interact with one another is known as. _____

2. _____ are also called Heterotrophs.

3. _____ is a system of interlocking and independent food chains.

4. _____is an extensive large ecosystem.

5. The vegetative type commonly found in desert biomes is called _____.

6. _____ is an aquatic biome that is found where fresh water and salt water mix.

IV. Answer the following in brief:

1. What is Biosphere?
2. What is an ecosystem?
3. What does the term 'biodiversity' mean?
4. What is meant by loss of biodiversity?
5. Mention the various terrestrial biomes.

V. Give reasons for the following:

1. Producers are also called autotrophs.
2. Biosphere provides a stable ecosystem.

VI. Distinguish between the following:

1. Producers and Decomposers.
2. Terrestrial biomes and Aquatic biomes.
3. Tropical vegetation and Desert vegetation
4. Savannas and Tundra

VII. Answer the following in a paragraph:

1. Explain the various components of ecosystem.
2. Write a paragraph on the functions of an ecosystem.
3. Explain about the aquatic biomes on Earth.

VIII. Find out the dates for the following:

1. World Wild Life Day . . ..
2. International Day of Forest . . . . . .
3. World Water Day. . . . . .
4. Earth Day . . . . . .
5. World Environment Day June 5th
6. World Oceans Day . . . . . .

IX. Map Study

Locate the following on the world outline map.

1. Priairies
2. Downs
3. Tundra Biomes
4. Equatorial Biomes
