How to help the value of sustainability grow among students?

- **Lifestyle**

Your lifestyle is your choice and you can change it. For example, when you go to the grocery store, make sure you always carry a cloth bag. This way the shopkeeper does not have to give you many plastic bags.

- **Fixing**

If your watch or a toy or a camera is broken or not working, try getting it fixed before you buy yourself a new one.

- **Recycle**

Try and be conscious about the things around you. When you consume something, see if you can re-use it later.

- **Needs vs Wants**

Before you buy something, ask yourself the question- do I NEED this or do I WANT it? Remember sustainability begins with you. So act locally and think globally.

Recap

- The place, things and nature that surround any living organism is called environment.
- The interaction between man as an individual with his family, occupation and society is called human environment.
- Population is a dynamic phenomenon where the number, distribution and composition are constantly changing.
- Population change refers to an increase or a decrease in the population of an area influenced by births, deaths and migration.
- The density of population is measured by dividing the total population by its total area.
- On the basis of occupation, settlements are classified as rural and urban.
- Primary, secondary, tertiary, quaternary and quinary are the different types of economic activities.
- Problems such as climatic changes, poverty, war and uneven distribution of resources leads to an unbalanced ecosystem. Therefore, to sustain mankind, it is a must to learn about sustainable development.

EXERCISE

G4XDR

I Choose the correct answer

1. All external influences and factors that affect the growth and development of living organisms is _____.
   a) Environment b) Ecosystem
   c) Biotic factors d) Abiotic factors
2. The 'World Population Day' is observed on _____ every year.
   a) August 11th b) September 11th
   c) July 11th d) January 11th
3. The statistical study of human population is _____.
   a) Demography b) Morphology
   c) Etymology d) Seismography
4. The extraction of valuable minerals and other geological minerals from the mines, is _____.
   a) Fishing b) Lumbering
   c) Mining d) Agriculture
5. The Secondary sector of the economy produces _____from raw materials.
   a) Semi finished goods
   b) Finished goods
   c) Economic goods
   d) raw materials
